Sample description

Label: Extra Virgin Olive Oil - Olivottoil, Ogliarolo - 2019 Edition

Sampling procedure: By the Customer

Quantity of sample: 250 ml

Return of sample: No

Legend

ND: Not Detectable as lower than the LOD of the test method.

U: Expanded uncertainty expressed with the same unit of measurement of the result obtained, calculated using a K factor = 2 for assuring a confidence level around 95% or, for microbiological tests, confidence interval with level of probability around 95%. For microbiological test the result is reported as "estimated" number of micro-organism per milliliter or gram if it is based on count less than 10, but at least 4.

LOD: Limit of Detection, the lowest concentration of analyte that can be detected, but not necessarily quantitated under the stated test conditions.

LOQ: Limit of Quantification, the lowest concentration of an analyte that can be determined with acceptable precision and accuracy under the stated conditions of the test.

R% : Mean Recovery in percentage (this value is not used to amend pesticides and metals analytical results).

En: Revision "N" of the Test Report that identifies the Amendment. This document replaces any previous version of the Test Report.

*: TEST NOT ACCREDITED BY ACCREDIA

Methods:

15-C = UNI EN 1528-1:1997 + UNI EN 1528-2:1997 + UNI EN 1528-3:1997 + UNI EN 1528-4:1997
